

MISSION:

Support medical oncology clinicians in delivering the highest quality, value, and equitable care to all cancer patients in WA state.

VISION:

A State where every individual has access to the best possible care and support to prevent, remit or cure cancer.

CORE VALUES:

Equity | Education
| Evidence/Value-Based Care
| Impact

Five-year Outcome: WSMOS becomes a key leader for promoting the interdisciplinary care needed by oncology communities throughout WA State and beyond to reduce the burden of cancer.

GOAL 1

Meet the needs of the medical oncology community through expanding learning & networking opportunities

GOAL 2

Educate & assist medical oncology practices to successfully navigate VBC

GOAL 3

Promote equity & sustainability in medical oncology practices in WA State

GOAL 4

Collaborate with National Oncology Networks, Societies & Associations
